

STORY OF UTAH'S MINES.

(Continued from page 27.)

mered one of the first bars of gold that came from the region. The domains of the Holland company adjoin those of the Sevier and with vigorous development now in progress, it, too, should add largely to the output of the camp in short time. In addition to these may be mentioned the Annie Laurie Extension on which work is progressing steadily, while just over the hill on Fish Creek are the properties of the Silver Peak company, that have responded most freely to development and upon which a mill will be constructed in a short time, no doubt. There are several undertakings in the locality, indeed, that are ripening for mill and a number of new ones should appear in the next two years.

More Camps of Gold.

While the year in Park valley was characterized by not a little exploratory work and with some assuring results, for representation in the realm of actual production, it was again required to rely upon the century mines of the State, contributing gold and silver of the value of about \$65,000, and of which sum its shareholders were permitted to draw down as much as \$21,000. The management of the same locality has promised that it shall be equipped with a mill with which to augment the supply of gold from that source before the current year is closed. The present year while others have planned for additional work.

Stateline, another link in the gold-bearing camps, was productive of less than 1000 ounces of that metal with a small amount of the white. This is issued from the mill with which the Johnny company has equipped itself, and while it was silenced the latter portion of the year there are assurances of a more lucrative campaign the present season.

There was some work in the old properties around Marysville that had been productive of not a little of the yellow metal as well as silver, but it was scanty and developed but little departure from that of former years. Over at Mount Baldy, not distant from Marysville, considerable work was prosecuted by the Gold Development company on an empire of territory and under the direction of Dr. P. A. H. Franklin, who expects to have it among the steady producers the present year while at several points in the district some activity was visible.

Transformation in Beaver.

With Samuel Newhouse and the powerful sinews employed by him in the exploitation of all his undertakings at work in that arena, Beaver county, during the year, became one of the most energetic in the State. However, operations were all preliminary to the prodigious results that are to follow, and that before the end of the year promise to place the region among the most productive in the commonwealth. At the Newhouse mines, formerly the old Cactus group of which the Frenchman made a failure because of his limited knowledge of metallurgy, a change has been wrought more dazzling and more astonishing in its spontaneity, than any of recent years in the history of the West. At its vantage the great Horn Silver, with its \$5,000,000 dividend record, the production of wealth has progressed as in recent years, the company passing around \$50,000 among its shareholders in 1904 and reserving a surplus with which to inaugurate the new. The equipment of the properties by the Messrs. Peck with a plant with which to begin the commercialization of its zinc ores and zinc tailings has been one of the notable acquisitions of the year in the region, and in the event of its success there is no doubt of its introduction in others in which this metal occurs. At the properties of the Majestic Mining company, rescued during the year from predicaments that threatened to completely overcome them, new work has been prosecuted with the most gratifying results, while the Imperial is to be reorganized in a short time by the Nevada-Cash to the assets of which company it has just been added. That it shall be made a most productive one is now positively assured, a large amount of ore similar to that in the Newhouse properties having already been exposed, while some of it sold on the local market testified to the presence of the most sensational percentages of copper. Adjoining it are the Blackbird mines, the conditions at which are identical with those in the Cactus group, while along the same great copper-bearing zone are others that must ultimately figure in the increased production of the State. The event of the new year in that locality will be, of course, the starting up of the huge concentrator constructed by the Newhouse company and the active reduction of the zinc product of the Horn Silver.

In Big Cottonwood.

The arrival of ores of fine quality from the mines of the Maxfield company during the year, the steady campaign of development that was prosecuted by the management of the Old Evergreen Mining company whose long tunnel has continued to undermine the zone and a chapter of encouraging disclosures on the prospects, has again emphasized the merits of Big Cottonwood, and the present season in that locality promises considerable activity, while the stupendous development in the mines of the old Miller group and the liberal output of ore that has followed has rendered American Fork canyon more active than at any period in many years. On the Dutchman and others considerable work has been performed and that the latter will be equipped with a mill and other means for the economic handling of its resources the present year is most likely. With a record that tells of an output of many millions in previous years the field offers many inducements to capital and to prospectors.

Wealth of Deep Creek.

While the receipts of ore from the

Deep Creek region in 1904 were confined practically to those forwarded by the Utah Iron and Steel company, the season there was one of not a little activity and with results at several points that afford most positive evidence of the merits of its multifarious ledges. At all of its more prominent camps, the usual developments were prosecuted, while at the Midas the management produced a small amount of gold bullion at its mill and then suspended because of a lack of water with which to continue the good work. At its neighbor, the Sheba, some work is also in progress and it is not unlikely that with a more efficient plant it will give better account of itself the present season. At the many prospects throughout the region the usual development work was done while the owners waited on the arrival of the long promised railroad, and to encourage its construction are not a few substantial additions to the camp. The event of the new year in the West, indeed, do so many opportunities await the miner and investor and that it will be made one of the most productive portions of the iron-mining country has long been assured.

Down Around Dixie.

Down in the southern country in the diggings of which the Dixie group of mines and the furnaces operated by the Utah and Eastern Mining company are the more prominent objects, the season has been one of steady production although the management has made no attempt to operate other than along the most conservative lines, nor will it depart from that policy until certain work that shall simplify the extraction of the ores, is completed. Notwithstanding this it has continued to increase its development has progressed and at greater depth the condition is immeasurably improved. On the Paymaster, adjoining the Dixie, a bond was recently executed in favor of Hon. Ezra Thompson of this city and associates, who will unite with him in its active development. The property should be made as productive as its neighbor.

South of this and along the mineral-bearing strip that divides the wealth of Utah and Arizona, the new year opens with the management of the Grand Gulch Mining company again in the field, high-grade copper ores again responding to the blast of blast. With the formation of the San Pedro railway now within about sixty miles of these properties, it is the intention of the Grand Gulch company, according to a recent announcement, to erect a furnace with which to reduce its ores on the ground the present year, while the properties of the Savanah company are now being developed under a lease and bond and promise to make as productive as in previous years.

Around the La Sala.

In the Big Indian region, out of Moab, and one of the gateways into the La Sala country, the year closed with just feeble signs of returning animation, and that active operation will be resumed at the Big Indian early the present year is not at all unlikely. The rapid recovery of the copper market and the enormous bodies of copper-bearing ore of which the Big Indian group is pro-

ductive places it among the great possibilities of the hour. That its resources have remained dormant for so long is no doubt due to the languor of the copper market during the greater portion of the previous year. Certainly the Big Indian should be made, with competent accessories, a source of large volumes of this metal.

Further on and into the region commonly known as the La Sala, notwithstanding the many camps that are within its boundaries, carnalities have drawn additional attention to its resources, while reduction works in the East, to which the ores of this class were forwarded for experimental purposes, have assured the owners that there is a possibility of their being made a source of great wealth. While no sensational developments have been made down there during the year, the work in many of its camps has been steady and energetic with the story of the year telling of not a few discoveries of copper and gold, silver and lead. With results achieved in that region, those who have pioneered it to its present prominence have reason to be much gratified, and that it will be ultimately among the most productive of Western camps there is everything to indicate.

Off the San Pedro.

Along the margins of the San Pedro railway beginning at Callientes and extending with the horizon for many, many miles, a number of most important disclosures have been recorded at intervals, while the mineral-bearing region in all directions has been the scene of more active prospecting during the year than any other corresponding one in the past. While it is impossible to make of almost every metal and of every mineral in the catalogue and that it is to be ultimately made the foundation for some of the most populous camps in the country is the assurance of everyone by whom it has been explored. Along the meridian, indeed, extending from the San Pedro to the cluster of Nevada camps of which Tonopah is the center, are possibilities as stupendous as ever held out to miner or investor. Several expeditions representing not only large amounts of wealth but much experience have gone into the field to systematically prospect it during the past few months, and that they will result in substantial finds is already indicated by those writing from the region.

New Source of Copper.

Over in the Sierra Madre mining district north of Ogden a dozen miles or so, and in which there has been much exploratory work for many years, the previous year was characterized by the usual development and by some results that foretell an active production of ore. The discoveries made in this locality in 1904 indicate quite conclusively that there is to be the home of not a few copper producers, and that with systematic endeavor those who have struggled with the undertakings in that locality for many years are to be amply reimbursed. The most prominent of those who have invaded this region, and who have persevered in his determination to make it respond to the needs of

the Nation is Don Maguire, and while he has not yet been rewarded, his faith in the zone has never relaxed and he will continue his operations as in the past.

It may be said of all the diggings in the State, indeed, that their physical condition has never equalled that upon which this new year dawns, and the mills and smelters permitting it, the output of 1905 will close upon a record more stirring than any yet presented.

In the Iron Mines.

While the measureless bodies of iron that occur in Iron county, this State, have not yet found their way into centers of commerce, their possibilities have been embraced by some of the most eminent ironmasters in the land, and that they will be brought into commercial activity the present year there is much to indicate. The most prominent factor to invade that field in recent years and that which has acquired possessions, the Irons of which cannot be exhausted in a century, is the Colorado Fuel and Iron company. That it will begin the utilization of these resources at an earlier period than its representatives have been willing to admit is information which comes through

channels quite reliable. Not only has this formidable company acquired a vast estate of iron, but it has reached into the coal diggings and from them procured an asset that must serve immeasurably the undertakings it has in view.

In addition to this interest are those controlled by home talent, and while the latter is not experienced enough in the reduction of iron ores to seriously consider the operation of iron blast furnaces, it realizes that there is plenty of skill conversant with such enterprises east and west, and with its co-operation they are as capable of exploiting them as are any of those who have grown up with the industry. While The Tribune is not at liberty to present its readers with particulars, it is positively known that one of the most prominent figures in the Pennsylvania iron region has allied himself with home talent and that he is now engaged upon the crystallization of a company that will hardly permit the erection of a plant of some magnitude. In addition to these acquisitions the same syndicate has procured options on coal lands and water-rights and with these resources the successful operation of an iron plant is easy of accomplishment. While the iron mines of Utah have been permitted to remain dormant for so many years, there is no doubt that the period is approaching rapidly when the manufacturers will appeal to this source for its raw materials. Certainly there is enough obtained in these deposits to meet the requirements of the world for an indefinite period.

1749 Kinds of Sausages.

Swiss, Austrian and German sausage makers have arranged to hold an international sausage exhibition at the next year at which 1749 different kinds of sausages will be exhibited. The exhibitors are aware that there are many sorts, but a Berlin authority counts the mysterious kinds in the composition of which is collected. The exhibitors will also show the ingredients of all the different sausages will be open to inspection. Some members of the trade oppose too great a strain on the palate, but the exhibitors are determined to expose to view

We Need Money

And in order to get it we have decided to make this GREAT SACRIFICE FOR TEN DAYS ONLY. We offer you thirty of the choicest IMPORTED TURKISH AND BOKHARA RUGS. All kinds, sizes and colors at the following low prices, which barely covers the duty:

No. 119—Size 15-8 by 7-4, regular price \$250.00, now \$150.00.	No. 104—Size 12 by 5, regular price \$120.00, now \$65.00.
No. 120—Size 11 by 5-2, regular price \$125.00, now \$65.00.	No. 128—Size 9-9 by 4-5, regular price \$80.00, now \$45.00.
No. 121—Size 11-4 by 5-3, regular price \$120.00, now \$60.00.	No. 138—Size 11-3 by 4-5, regular price \$100.00, now \$50.00.
No. 122—Size 9-9 by 5-7, regular price \$85.00, now \$45.00.	No. 124—Size 12-11 by 6-2, regular price \$140.00, now \$70.00.
No. 123—Size 10-3 by 5-7, regular price \$90.00, now \$55.00.	No. 125—Size 11-3 by 5-7, regular price \$120.00, now \$60.00.
No. 124—Size 11-10 by 4-10, regular price \$22.50, now \$12.00.	No. 126—Size 13-5 by 10, regular price \$200.00, now \$100.00.
No. 125—Size 10-2 by 5, regular price \$80.00, now \$50.00.	No. 127—Size 11-6 by 6-3, regular price \$150.00, now \$75.00.
No. 126—Size 11-10 by 5-2, regular price \$110.00, now \$50.00.	No. 128—Size 16-3 by 6-3, regular price \$250.00, now \$120.00.
No. 127—Size 10-10 by 5, regular price \$105.00, now \$55.00.	No. 129—Size 12 by 7, regular price \$180.00, now \$90.00.
No. 128—Size 13-3 by 5-10, regular price \$175.00, now \$85.00.	No. 130—Size 13 by 6-3, regular price \$150.00, now \$75.00.
No. 129—Size 10-5 by 8, regular price \$90.00, now \$55.00.	No. 131—Size 11-6 by 6-5, regular price \$175.00, now \$85.00.
No. 130—Size 11-4 by 5, regular price \$55.00, now \$30.00.	No. 132—Size 12-10 by 6-5, regular price \$185.00, now \$95.00.
No. 131—Size 11-3 by 5-5, regular price \$85.00, now \$50.00.	No. 133—Size 13-3 by 6, regular price \$165.00, now \$85.00.
No. 132—Size 11 by 5, regular price \$90.00, now \$50.00.	No. 134—Size 15-11 by 6-8, regular price \$275.00, now \$135.00.
No. 133—Size 11-4 by 5-4, regular price \$120.00, now \$60.00.	No. 135—Size 16-7 by 6-5, regular price \$250.00, now \$120.00.

1904 A RECORD BREAKER!

DRS. SHORES & SHORES, SALT LAKE'S POPULAR EXPERT SPECIALISTS—HAVE BROKEN ALL PAST RECORDS IN THE YEAR JUST CLOSED.

50 PER CENT MORE APPLICATIONS FOR TREATMENT

WERE MADE DURING 1904 THAN ANY YEAR SINCE DRS. SHORES FIRST OPENED THEIR OFFICES IN SALT LAKE CITY—NEARLY FIFTEEN YEARS AGO. ABSOLUTE PROOF THAT SICK PEOPLE BELIEVE IN THESE MASTER SPECIALISTS AND HAVE APPROVED OF THEIR SPLENDID WORK AND HUNDREDS OF CURES.

90 PER CENT MORE CURES THAN EVER BEFORE

Owing to the fact that during the early part of 1904—Drs. Shores & Shores made several important discoveries which fairly REVOLUTIONIZED the Modern practice of medicine—their success has been such that 90 per cent more cases this year than was ever possible before—SIMPLY BECAUSE THEY NOW CURE HUNDREDS OF CASES THAT UNTIL THIS LATEST DISCOVERY WAS MADE WERE UNCURABLE. DRS. SHORES HAVE MADE AN ENVIABLE RECORD IN UTAH—BUT THEY ARE NOT SATISFIED WITH THE WORK OF "YESTERDAY"—THEY ARE PROGRESSIVE AND UP TO DATE—AND CONSTANTLY KEEP IN TOUCH WITH THE WORLD'S BEST AND BRIGHTEST THOUGHTS ON MODERN MEDICINE, AND AS SOON AS A NEW THEORY HAS BEEN PROVEN OF VALUE—DRS. SHORES ARE THE FIRST TO ADOPT IT.

DRS. SHORES' RATES ARE LOW AND UNIFORM—\$5 A MONTH—MEDICINES FREE FOR ALL CATARRHAL CHRONIC AFFECTIONS, MAKES IT POSSIBLE FOR THE POOR AS WELL AS THE RICH TO BE CURED. CONSULTATION AND ADVICE IS ALWAYS FREE AND CONFIDENTIAL BY MAIL OR AT THE OFFICE. CALL OR WRITE.

DANGER SIGNALS

Aches and Pains Are the Danger Signals That You Are Sick and Need Treatment.

Read the following symptoms over carefully, mark those you feel in your case and send or bring them to Drs. Shores and they will tell you whether you can be cured FREE OF CHARGE.

The Head and Throat.

This form of catarrh is most common—resulting from neglected colds—quickly cured with little cost by Drs. Shores' famous treatment.

"Is your nose stopped up?"
"Does your nose discharge?"
"Is your nose sore and tender?"
"Is there pain in front of head?"
"Do you hawk to clear the throat?"
"Do you feel the throat dry the morning?"
"Do you sleep with your mouth open?"
"You can be easily cured now—don't let it run into complications."

The Bronchial Tubes.

When catarrh of the head or throat is neglected or wrongly treated, it tends down the windpipe into the bronchial tubes and after a while attacks the lungs. Quickly cured with little cost by Drs. Shores' famous treatment.

"Have you a cough?"
"Do you take cold easily?"
"Have you pain in the side?"
"Do you raise frothy materials?"
"Do you spit up little green lumps?"
"Do you feel you are growing weaker?"
"Don't risk neglecting these warnings—stop the disease before it reaches the lungs."

\$5 A MONTH BY MAIL

No one need be deprived of the advantages of this SPECIAL OFFER because of living away from the city. WRITE DRS. SHORES AT ONCE, if you cannot call, FOR THEIR SYMPTOM LIST AND QUESTION BLANKS, and take advantage of Drs. Shores' SPECIAL OFFER TO CURE CATARRH AND ALL CATARRHAL CHRONIC DISEASES FOR THE LOW FEE OF \$5 A MONTH; NO OTHER CHARGE OR EXPENSE. ALL MEDICINES FREE. This special offer goes into effect AT ONCE, and holds good to ALL WHO APPLY THIS MONTH. CALL OR WRITE. CONSULTATION FREE WHETHER YOU TAKE TREATMENT OR NOT. DO NOT DELAY. APPLY NOW.

Of the Ears.

Catarrh extends from the throat along the windpipe into the ears, especially partial or complete deafness. Quickly cured with little cost by Drs. Shores' famous treatment.

"Is your hearing failing?"
"Do your ears discharge?"
"Is the wax drying in your ears?"
"Do you hear better some days than others?"
"Is your hearing worse when you have a cold?"
"Do you neglect this until your hearing is irreparably destroyed. Drs. Shores can cure you."

Kidney Disease

Results in two ways, by taking cold and by overworking the kidneys in separation from the blood the catarrhal poisons which affect all organs. Quickly cured with little cost by Drs. Shores' famous treatment.

"Do your hands and feet swell?"
"Is it noticed more at night?"
"Is there pain in the small of the back?"
"Has the perspiration a bad odor?"
"Is there puffiness under the eyes?"
"Do you have to get up often at night?"
"Is there a deposit in urine if left standing?"
"Don't neglect these signs and risk Bright's Disease killing you. Cure it now."

Liver Disease.

The liver is affected by Catarrhal poisons, extending from the stomach into the ducts of the liver. Quickly cured with little cost by Drs. Shores' famous treatment.

"Do you get dizzy?"
"Have you cold feet?"
"Do you feel miserable?"
"Do you get tired easily?"
"Do you have hot flashes?"

WEAK MEN PAY WHEN CURED

Gonorrhea.

Be sure your cure is thorough. Not one of our patients has ever had a relapse after being discharged as cured, and we cure in less time than the ordinary forms of treatment require.

Syphilis.

No dangerous minerals to drive the virus to the interior, but harmless, blood cleansing remedies, that remove the last poison taint.

"Are your spirits low at times?"
"Do you have rumbling in the bowels?"
These are the seven simple signs indicating disease of the liver. If you have any of them, seek Drs. Shores now and be cured.

Catarrh of the Stomach.

Catarrh of the stomach is usually caused by swallowing poisonous mucus, which drops down from the head and throat at night. Quickly cured at little cost by Drs. Shores' famous treatment.

"Is there nausea?"
"Do you belch up gas?"
"Are you constipated?"
"Is your tongue coated?"
"Do you bloated up after eating?"
"Is there constant bad taste in the mouth?"
Now is the time to be permanently cured. Drs. Shores are curing hundreds every week.

Symptoms of Diseases of the Nerves.

The majority of nervous diseases are caused by poisons in the blood. Poison circulating in the blood harasses the nerves, and such symptoms as the following:

"Do you get dizzy?"
"Is your mind dull?"
"Are you easily excited?"
"Do you have headaches?"
"Are you easily irritated?"
"Are you always anxious?"
"Do your muscles twitch?"
"Is your temper irritable?"
"Suffer from sleeplessness?"
"Are you easily frightened?"
"Does your sleep not refresh you?"
"Do you suffer from neuralgia?"
"Do you have horrible dreams?"

Lost Manhood.

Spent matorrhea, Stricture, Piles, Skin and Kidney Disease, Lost Manhood, Hypospadias, Seminal Weakness, etc., are also among the diseases we cure to star cured.

A Grateful Woman

MRS. MARY SWAN, Ogden, Utah.

Mrs. Swan says: "I deem it a Christian duty to tell the world what Drs. Shores have done for me. For ten years I have been an invalid—suffering from catarrh, kidney and liver trouble, and all the while the doctors have been useless. Doctor after doctor failed to help me—patent medicines and elixirs did me no good, and when I heard of Drs. Shores curing my cousin (O. Peters), I went to them as a last resort. Two weeks later I began to feel like a free woman, six weeks later I was almost well. Today I am entirely cured, free from aches and pains, and so happy I cannot say enough in praise of these wonderful doctors. My advice to all who are sick is: Go to Drs. Shores at once—if you are not so far gone, they will cure you. They did me. Thankfully, MRS. MARY SWAN."

We Treat and Cure

CATARRH—Deafness, Nose and Throat Troubles, Eye and Ear Discharge, Bronchial and Lung Diseases, Asthma, Stomach, Liver and Kidney Diseases, Bladder Troubles, Female Complaints, Chronic Diseases, Chorea (St. Vitus' Dance), Rickets, Spinal Trouble, Skin Diseases, Scalds and Rheumatism, Diseases of the Bowels, Fistula and Rectal Troubles, Gout (or Big Neck), Blood Diseases, Tapeworm, Hay Fever, Hysteria, Epilepsy, Insomnia, Liquor and Tobacco Habit, etc., and all curable chronic diseases.

DR. G. W. SHORES.

DRS. SHORES & SHORES

EXPERT SPECIALISTS.

HOUSTON BLOCK, 249 SOUTH MAIN STREET. Office Hours: 9 a. m. to 5 p. m.; 7 to 8 evenings; 10 to 12 Sundays and holidays.

DR. A. J. SHORES.

Drs. SHORES CURE THE SICK

MISS GUSSIE GETCHELL, Salt Lake City, Utah.

Miss Getchell says: "I have suffered a long time from a severe case of Catarrh. In San Francisco, I was so sick I was confined to my bed for three weeks, and my mother feared I had consumption. She went to Drs. Shores & Shores for advice, and I began my treatment—and after a short time I became well and strong again. On coming to Utah the change of climate brought on another attack similar to the first one—and I again consulted Drs. Shores and began treatment, and the results have been splendid. Today I feel like a new girl—the old hacking cough has left me, my head and nose are clear again, and I feel so good that I think I owe it to other sick people to tell what Drs. Shores have done for me. (Signed) 'MRS. T. GETCHELL, MISS GUSSIE GETCHELL.'"
